Substation Equipment Testing Projects				
1	Testing & commissioning of 33/11Kv & 11/0.433Kv Substation, Control & Protection scheme checking, testing of protective relays, cable schedule preparation	Middle East Control Services	33/11KV/0.433Kv Substation at Oxy Mukhazna	Completed
2	Testing of 33KV Areva GIS Panel Ammeter, Voltmeter, Multifunction Meter, Aux Relays, CT & VT and Testing of 4MVA, 2MVA Transformer including Stability & Sensitivity, 11KV Water Injection Motor Control & Relay Panel & 415V Switchboard	Al Hassan Engineering Co S.A.O.G.	NIMR-C, Full Field Water Injection Project - PDO	Completed
3	Testing of Scheme checking of switchgears, Protective relays, VT and Breakers Testing, Current Transformers, Testing of Potential Transformers, Testing of BUSBAR, Commissioning of LT Panel	L & T EBG - Mumbai	Sohar Aromatic Projects for Aromatic Oman LLC	Completed
4	Over all Substation Checking. 132KV ABB make SF6 Circuit Breakers Testing. ABB make current Transformer and voltage transformer. ABB make Isolator Testing 40 MVA Transformer Testing make EMCO, SCADA System and PLCC Checking, 33KV TAMCO make Switchgear. SCADA System and PLCC Checking, Bus-transfer scheme checking with Isolator interlocks. 20MVA Transformer Testing. 33KV/415V Earthing Auxiliary Transformer Testing.	Bhawan Engineering Co. LLC	OETC-132/33/11KV Switch yard	Completed
5	Testing of Distribution Transformer, Testing of 6.6 KV SIEMENS make Circuit Breaker, Testing of 415V L & T make ACB Circuit breaker, Testing of CT& PT, Scheme Checking of 6.6 KV/415V swgr. Testing & commissioning of P&B motor protection Relays , Scheme through & Trip Test & Testing of Synchro Relays,	Dodsai Engineering & Construction LLC	6.6/0.415V S/S- Qarn Alam Steam Project - PDO	Completed

6	Component testing of CT, VT, Backup and Auxiliary relays and Relays final settings, Testing and Scheme checking of Control (LCC) and Relay panels (CRP), Testing of Bus bar protection Stability and Sensitivity. Testing of Transformer Differential and REF protection Stability and Sensitivity. TCS and TSS Scheme checking of 11kV and 132kV circuits. Primary injection of CT circuits (LVAC, 11kV, 132kV-CT). Secondary Injection of VT circuits (11kV, 132kV-VT). Trip coil current measurement. Trip logic scheme checking of 11kV and 132kV circuits. SCADA operating systems. Interlocks.(Mechanical, Electrical and SCADA), Scheme checking for HT Switchgears 11KV panels. Alarm and indication circuit's checks of 11kV and 132kV circuits. Battery Bank Charging and Discharging Test. Battery Charger Operation Checks. Preparation of Pre-commissioning check lists, test reports, as built drawings, cable schedules, scheme modification and detailed commissioning schedules for the above	L & T (Oman) LLC	132/33KV GIS Substation SFZ PHASE-1 & IWPP Phase 2 - Salalah	Completed
7	Testing and Commissioning of 33/11.5 KV, 20MVA Power Transformer. 33/11 KV SWGR equipments such as CT's, PT's, Breakers, Primary injection of CT circuits (LVAC, 11kV, 132kV-CT). Secondary Injection of VT circuits (11kV, 132kV-VT). Trip coil current measurement. Scheme checking for HT Switchgears 33/11KV panels	L & T (Oman) LLC	33/11.5 KV JIBROO PRIMARY SUBSTATION - MEDC	Completed
8	Testing & Commissioning of 33kV SS equipments	Bahwan Engineering Co. LLC	Development of Muscat International Airport Project - MEDC	Completed
9	Testing of Transformers upto 260MVA and other accessories	L&T Electromech LLC	Jindal Shaded Iron and steel, Sohar, Oman	Completed
10	Testing & Commissioning of 132/33kV Primary Substation	ONEIC	OETC- 132/33kV Primary Substation, Sumail, Oman	Completed
11	Testing & Commissioning of Gas plant equipments	Air Liquide Sohar Industrial Gases L.L.C	Annual Maintenance Testing of GAS Plants I & II- Sohar	Completed
